"In accordance with rule 10 of the rules for the management of the I.M.M.T.S. "Dufferin" the Governing Body made a formal inspection of the ship on the afternoon of Monday, October 8th, when these were present:—

Captain Sir Edward J. Headlam, Kt., C.S.I., C.M.G., D.S.O., A.D.C., R.I.M., Chairman.
Sir Hormusjee Cowasjee Dinshaw, Kt., M.V.O., O.B.E.

Sir Chimanlal Setalvad, Kt., C.I.E., B.A., LL.B., LL.D.

M. A. Master, Esq., B.A., LL.B.
Commander H. A. B. Digby-Beste, O.B.E., R.I.M., Secretary.

2. The alterations, improvements, repairs, etc., mentioned in the first paragraph of the Governing Body's report of May 4th, 1928, which had been carried out, were inspected.

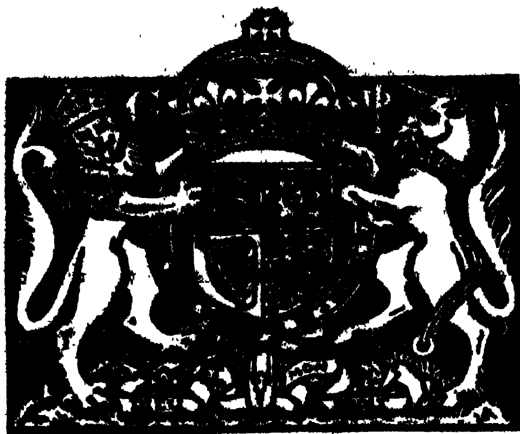
3. The swimming bath has been a great success and the new changing room, which had been planned in the place of old store rooms, presented a very attractive appearance and is a good addition to the amenities and comfort of the cadets as well as being of advantage to the ship to have all the old and useless storerooms removed.

4. It is now proposed to do the same with the forward old storerooms and in the spaces available erect a carpenters and engineering works, most of the requisites for which are already in the ship.

5. The Cadets' kitchen which has been remodelled and repaired is a great improvement on the old.

6. Buzzers and signalling lamps have been installed in various places for the purpose of teaching the cadets Morse signalling.

7. The Captain explained that he was carrying out all repairs now by hiring daily labour which worked under the supervision of the ship's staff. This method was proving most satisfactory and was much more economical than putting the work out to contract by shore firms.



8. With the exception of one boy who was ill all the cadets had returned from their holidays, happy and healthy and keen to commence their term's work.

9. The Governing Body were very glad to note that the training ship continued to be successful in all its branches, and that the cadets continue to show the same zeal in their training for their new life; in fact two of the boys on their own initiative had actually spent some part of their holidays at sea.

10. The Captain and his staff also continued to show the same sympathetic kindness combined with firmness which the Governing Body had such pleasure to note in their previous report."

The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. RESOLUTION ON THE SIXTY-SIXTH ANNUAL REPORT OF THE GOVERNMENT CINCHONA PLANTATIONS AND FACTORY IN BENGAL FOR THE YEAR 1927-28

GOVERNMENT OF BENGAL.

Revenue Department.

Cinchona.

CALCUTTA, THE 5TH JANUARY 1929.

RESOLUTION—No. 186 Cin.

READ—

The sixty-sixth Annual Report of the Government Cinchona Plantations and Factory in Bengal for the year 1927-28.

READ ALSO—

The reports of the previous three years.

Dr. J. M. Cowan officiated as Superintendent till the 21st November 1927, when Mr. C. C. Calder resumed charge of his substantive post, and held it till the end of the year.

2. A survey of the plantations referred to in the resolution on the report for the year 1926-1927 was commenced in 1927-1928 through the agency of the Survey of India, but was not completed during the year.

3. Pending the decision of the Government of India on the Report of the Agricultural Commission no action has been taken during the year on the report written by an officer of the Auditor-General regarding the commercialisation of the accounting system of the Bengal Cinchona Department.

4. The area under cultivation at the end of the year was 4,898 acres. Extensions comprising 156 acres were carried out during the year. The coppicing which was carried out some years ago in the upper blocks of the Burmiak division has produced the finest cinchona yet grown in the plantations.

5. Harvests have been confined to thinnings and to the extraction of trees which had died or become unhealthy. Harvests do not reduce the area under cultivation, but as the process of thinning and uprooting dead trees goes on, the area of a block ceases to have any fixed relation to the stock, on the block.

In order to have a staple basis of comparison the unit of stock in reports previous to last year's report was taken as an acre with a full complement of cinchona. This year the Superintendent has reverted to this unit. The figures in Appendix A represent the area of the plantations reduced to acres with a full complement of cinchona. The actual area of the plantations is 4,626 acres, but these represent only 3,162 fully stocked acres.

6. 9,17,259 lbs. of Bengal bark was harvested in the year of report against 6,69,000 lbs. in the previous year.

7. Altogether 11,43,732 lbs. of dried bark was used in the factory during the year. Of this, 8,57,900 lbs. represents the Bengal bark, and the rest Java and Burma bark belonging to the Government of India. The total quantity of quinine sulphate manufactured during the year was 46,485 lbs. at Rs. 2·721 per lb. Of this, 13,195·5 lbs. belongs to the Government of India. Of the total quantity of cinchona febrifuge amounting to 20,899 lbs. manufactured during the year 4,169 lbs. belongs to the Government of India. The cost incurred was Rs. 1·820 per lb. Besides, 289·2 lbs. of other quinine salts at a cost of Rs. 3·8 per lb. and 337·9 lbs. of other alkaloids at Rs. 4·64 per lb. were manufactured.

8. The total of factory products during the year exclusive of converted products was 68,371·3 lbs., of which 51,006·8 lbs. represents the Bengal share and the remaining 17,364·5 lbs. belongs to the Government of India.

9. The total expenditure of the department during the year, including pensionary charges, was Rs. 4,48,244-9-9, and the total receipt exclusive of Rs. 7,692-6-6 from land rent and grazing fees paid into treasury not to the credit of the Cinchona Department was Rs. 5,38,202-5-9. The expenditure was higher by Rs. 58,493-1-3, and the receipts were lower by Rs. 60,449-2-3, than in the previous year

The increase in expenditure during 1927-28 as compared with that for the year 1926-27 is due to—

(1) Mr. Shaw's drawing full salary in India during 1927-28, whereas in 1926-27 his leave salary for 9 months was drawn in England,

(2) calculation of the pensionary charges under head "Establishments" at ⅕th of the total establishment charges during 1927-28 instead of at ⅙th as during 1926-27.

(3) increase in stores required for tablet manufacture, installation of double purification plant, increase in expenditure on the carriage of bark and customs duty during 1927-28.

(4) the cost of the survey of the plantations amounting to Rs. 5,000 incurred during 1927-28 by the Director of Eastern Circle, Survey of India,

(5) the manufacture of quinine tablets being carried on through out the year 1927-28 against six months during 1926-27, and

(6) the adjustment of Rs. 2,300 on account of the cost of the proposed introduction of the commercial system of accounts in the Bengal Cinchona Department.

The drop in receipts is attributed to—

(1) the smaller quantity of quinine sulphate tablets sold during 1927-28,

(2) the fall of about Rs. 26,000 under cinchona febrifuge sale during the year,

(3) the credit of a smaller amount of outstandings, viz., 15,722 during 1927-28 against Rs. 46,511 during 1926-27, and

(4) the fact that the outstandings at the end of 1927-28 are Rs. 4,616 more than at the beginning of the year.

10. Thanks of Government are due to Dr. Cowan, Messrs. Calder and G. E. Shaw, the Quinologist and the other subordinate officers, particularly Messrs. H. Thomas and G. H. Fothergill for their efficient administration of the department.

ORDER—Ordered that this resolution be published in the *Calcutta Gazette* and that a copy with a copy of the report be submitted to the Government of India.

By order of the Governor in Council,

H. C. V. PHILPOT,

Secretary to the Government of Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the Winter Til (Sesamum) crop of Bengal, 1928-29.

(NOTE.—On an average of the five years ending 1926-27, the area under *til* in Bengal has represented some 2 7 per cent. of the total area under *til* in British India.)

Character of the Season.—In Mymensingh and in some West Bengal districts the weather was not favourable at the sowing time. Subsequent weather conditions favoured the early growth of the crop generally, but heavy rainfall in October caused damage to the mature crop and diminished the outturn in some important districts. On the whole, the season may be regarded as a fair one for the crop.

Acreage.—The total area sown with the crop this year is estimated at 51,100 acres against 50,700 acres last year.

Outturn.—According to District Officers' estimates the outturn of the crop for the province, as a whole, works out at 84 per cent. of the normal against 83 per cent. last year. Taking 6 maunds as a normal rate of yield per acre, the gross outturn for the province is estimated at 9,500 tons this year against 9,300 tons last year, or an increase of about 2 per cent.

ROBERT S. FINLOW,
Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Wheat Crop of Bengal, 1928-29.

[NOTE.—On an average of the five years ending 1926-27, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1926-27, averaged (*a*) 38·5 and (*b*) 14·0 per cent., respectively.]

Explanatory.—Four forecasts of the wheat crop are published. This forecast deals only with the area sown and the general condition of the crop in its early stages.

Acreage.—According to the estimates of the District Officers, the total area sown amounts to 122,100 acres as against 107,100 and 106,600 acres, reported, respectively, in the corresponding and final forecasts of last year.

Character of the Season.—At the outset the conditions were favourable for preparatory tillage. Sowings in consequence generally took place in the normal time except in some North and East Bengal districts where the operations were a little late owing to excessive rainfall in October. Dry weather in November has been helpful to further sowings and growth of the crop, and the present outlook is reported to be good on the whole.

Director of Agriculture, Bengal.

No. 101.—The 20th December 1928.—The following draft of amendments which, in exercise of the powers conferred by section 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make in the revised rules for the Calcutta and Eastern Canals, Tolly's Nala and Sunderbans Steamer Route (published in Bengal Government notification No. 16I., dated the 14th April 1924, at pages 829-34, Part I of the *Calcutta Gazette* of the 16th idem), is hereby published for the information of persons likely to be affected thereby.

The draft will be taken into consideration on or after the 15th March 1929, and any objections or suggestions received by the undersigned before that date will be considered:—

Draft amendments.

Substitute the following for rule 27 of the said rules:—

"27. Every vessel proceeding through the Calcutta Canals and Tolly's Nala must limit her speed to 5 miles per hour between sunrise and sunset and to 3 miles per hour between sunset and sunrise."

Insert the following new rule as rule 28A of the said rules:—

"28A. On three convictions before a Magistrate under rule 28 for contravention of rule 27, the license for the same vessel to ply in the canals shall be refused by the Supervisor for any period deemed necessary and any toll already paid, forfeited."

N.B.—The above amended rules will also be applicable to that portion of the Eastern Canals (as defined in Bengal Government notification No. 230, dated the 23rd July 1895) which lies between Bamonghatta and Kulti.

First publication.

No. 21—The 18th January 1929.—The following draft of rules which, in exercise of the powers conferred by section 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make for the regulation of traffic in the line of navigation known as the Mahananda river (100 miles in length) in the districts of Malda and Rajshahi which has been declared under section 2 of the said Act in Bengal Government notification No. 10-I., dated the 18th October 1927, published in Part I of the *Calcutta Gazette* of the 27th idem, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 10th April 1929, and any objections or suggestions received by the undersigned before that date will be considered:—

Draft Rules.

1. All vessels, when moored, must be made fast by the bow and stern along the bank so as not to obstruct other vessels passing in the river.

2. In such portions of the river where only one towing path exists, vessels must be moored on the off-side and the towing path side kept clear.

3. Only one vessel is allowed to make fast along and in line with the river banks, and no other vessel is to be made fast or to be placed outside of vessels so secured without the special permission of the Supervisor. No vessel or raft is to be placed in such a position as to endanger the safety, or obstruct the passage, of other vessels, and all vessels are to be moored in such places and in such a manner as the Supervisor may at any time direct.

4. The Supervisor may, by notification, prohibit the dropping of anchors or the erection of bamboos or *luggees* in or on any portion of the river or banks, and no anchors may be dropped or bamboos or *luggees* erected at such prohibited sites.

5. No vessel shall be moored at a distance of less than 500 feet from the junction of two or more rivers.

6. Vessels are not permitted to anchor or moor in the restricted portions of the channels maintained by training works.

7. Before entering such restricted channels the person in charge of the vessel must lighten his vessel sufficiently to prevent grounding in the channel.

In the event of any vessel running aground, the person in charge of the vessel must arrange for its immediate release by all means possible, failing which it will be lawful for the Supervisor or his subordinates to arrange to remove such vessel and to recover the costs of such operation from the owner of the vessel as provided for in rule 11 below.

8. No person is allowed to place any obstruction on the river banks so as to impede free passage along them. No person is permitted to place any obstruction in the river bed so as to impede navigation or cause any deterioration of the channel.

9. No person shall wilfully or negligently allow a vessel to sink in the river.

10. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

11. If three days after the occurrence of a wreck it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that, when the wreck obstructs the fairway, they may take action at once to remove the same.

A notice must be affixed on the wreck when recovered, calling on those concerned to pay to the Supervisor all expenses incurred in the recovery or removal of the wreck, and intimating that if the sum be not paid within fifteen days of the date of notice, the vessel and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, the proceeds of the sale being dealt with as directed in section 9 of the Canals Act of 1864.

12. Every Canal Officer is authorized to remove any vessel, anchor, pole or any other thing which he may find in a position in contravention of these rules and to deal with it in such manner as may be necessary to give effect to the rules.

13. Whenever any laden vessel which has been sunk, has been recovered, or when a laden vessel has been seized under the provisions of the Canals Act or of these rules, the Supervisor must give immediate notice of the same to the owner or his agent, calling upon him to remove the cargo without delay and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

14. If the Supervisor be unable to ascertain the name and the place of business or abode of the owner of the cargo of any vessel seized under the said Act, he must notify the seizure by advertisement in his office and in at least one public newspaper. Such notice shall require the owner to cause the immediate removal of the cargo and to pay all expenses incurred in providing for its proper custody and storage.

15. The Supervisor may incur whatever expenses are necessary for the proper custody and storage of the cargo of any vessel seized under the Act and, if the cargo be not removed within ten days from the date of seizure, he may sell the same at a public auction to be held in his office or at the place of seizure to the highest bidder, after giving ten days' notice of the auction by advertisement in at least one newspaper.

16. The money realized at such a sale is to be applied, in the first instance, to defray any expenditure that may have been incurred by the Supervisor on account of the cargo sold, and the balance, if any, is to be held in deposit to be paid to the owner of the said cargo on his applying for the same.

17. No officer of any description or rank employed on the river shall, either directly or indirectly, bid for or purchase any article sold under these rules or under the provisions of the Act.

18. Any person (other than the Supervisor or his subordinates), who infringes any of these rules, shall be liable to a fine not exceeding fifty rupees for any one infringement and to an additional fine at a rate not exceeding five rupees a day if the infringement be continued.
